SELAMAWIT SIFERH

SOFTWARE ENGINEER/ WEB DEVELOPER

PROFILE

Motivated and skilled Front-End Developer with a strong foundation in Software Engineering and computer science principles. I have honed my skills in developing innovative, responsive, and user-centric web applications using modern tools and frameworks. Proficient in front-end technologies with a basic understanding of back-end systems and RESTful APIs, I deliver scalable, high-performance solutions. My academic background and project experience have equipped me with solid programming knowledge and software development methodologies. With a passion for technology, creativity, and continuous learning, I am eager to contribute to impactful projects and drive innovation in the software engineering field.
